

Website wants some correction: -

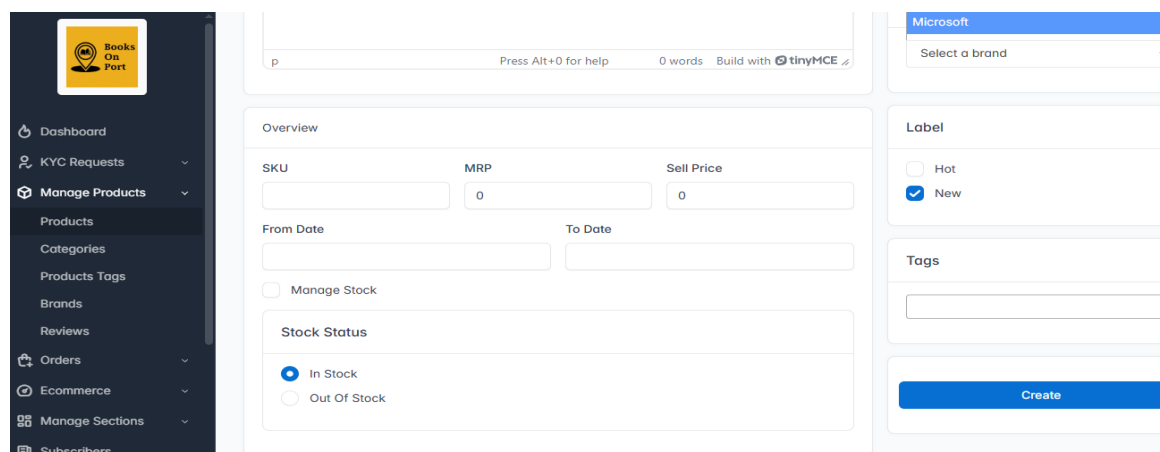

● Admin Dashboard:

1. **Section- Manage Products- Products- Categories:** - Currently, according to the admin interface, multiple categories and subcategories are being selected at the same time. Here, we will have to provide separate columns for categories and subcategories, i.e., first we will select categories and then the subcategories corresponding to those categories will be selected. And only one selection is required at a time.

2. **Section- Manage Products- Products-Book Details-Conditions- Donate-**

Whenever we select the donate option, only the sale price will be zero and the MRP will remain the actual one.

● Vendor Panel:

- 1. Product- Create Product-** multiple categories and subcategories are being selected at the same time. Here, we will have to provide separate columns for categories and subcategories, i.e., first we will select categories and then the subcategories corresponding to those categories will be selected. And only one selection is required at a time.

The screenshot shows the 'Create Product' form. The left sidebar contains navigation links: Home, Ecommerce, Products, Orders, Withdraws, Store Profile, and Settings. The main content area features two TinyMCE editors for content. The right sidebar includes an 'Enable' toggle, a 'Categories' section with a tree view, and a 'Brand' section.

3. **Product- Create Product-Overview** – For stationary (Office stationery, school stationery) item it is mandatory for vendor to define **HSN code, GST rate, Net Weight, Product Dimensions (LxBxH) in (cm, mm, inch.)** of product at the time of listing.

The screenshot shows the 'Create Product-Overview' form in the Books On Port admin panel. The form is divided into several sections: 'Overview' with fields for SKU, Price, and Special Price; 'From Date' and 'To Date' date pickers; a 'Manage Stock' checkbox which is checked; a 'Quantity' input field; and a 'Stock Status' section with radio buttons for 'In Stock' and 'Out Of Stock'. A sidebar on the left contains navigation links: Home, Ecommerce, Products, Orders, Withdraws, Store Profile, and Settings. On the right, there is a 'Tags' section and a prominent blue 'Create' button. At the bottom right, a copyright notice reads: 'Copyright © 2025 Shakil Ahmed. All rights reserved. · v1.0.0'.

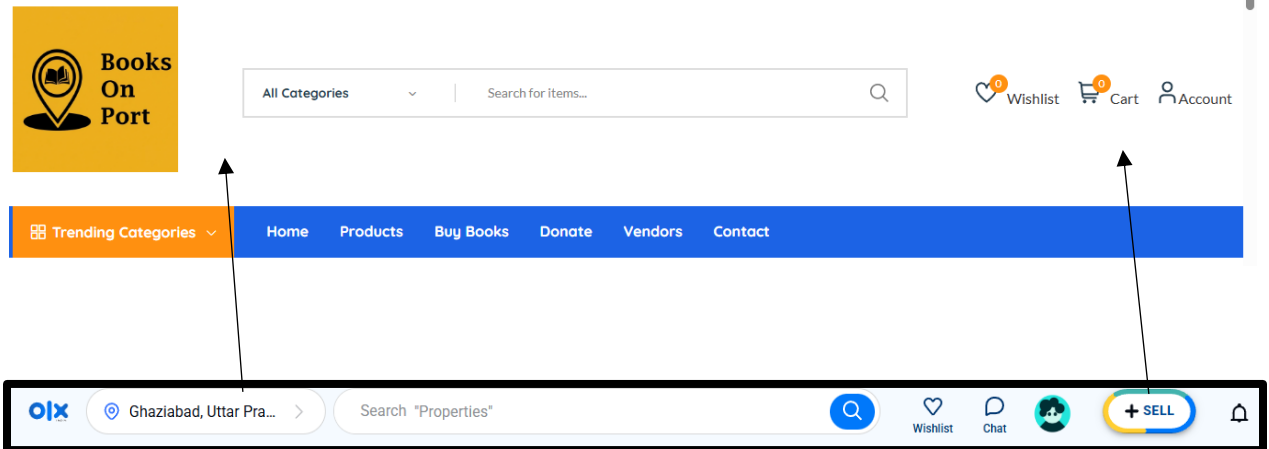

(Same change is required for Admin Panel Also)

4. **Vendor Setting: -** Vendor Bank details, GST details, vendor digital signatures required for final billing settlement and invoice generation.
5. **Legal Policy:-** All the legal policies required on **both customer panel and vendor panel also.**
6. **KYC Varification:-** under this section it is mandatory for vendor verification to upload one id (Aadhar, Pan,Pasport, Driving Licence), and upload GST certificate.

The screenshot displays the 'Kyc Verification' form. It contains the following fields: 'Full Name *' (text input), 'Date of birth *' (text input with value '1990/7/9'), 'Gender *' (dropdown menu with 'Select' option), 'Full Address *' (text input), and 'Document Type *' (dropdown menu). The 'Document Type' dropdown is currently open, showing a list of options: 'Select', 'ID Card', 'Passport', and 'Driving License'. The 'Select' option is highlighted in blue.

- **Customer Panel:**

1. **HOME:-** A teg is required to sell/Donate used books for any one (Vendor registration not required) and location at home page.

2. **Chatting: -** A WhatsApp chatting is required on books items (Used Books, Donate Books) for customer-to-customer interface.
